

Compliance with KPMG Law and OneTrust

KPMG Law Rechtsanwaltsgesellschaft mbH and OneTrust Technology Limited have entered into a strategic alliance to support companies in their adherence to data protection and other compliance regulations.

OneTrust service packages:

- 1 Implementation**
You do not yet work with OneTrust. With our assistance, you can implement OneTrust with the support of our experts. This will allow you to meet your company's unique needs and legal requirements.
- 2 Support**
You have already integrated OneTrust into your organisation but would like to further enhance your results. Our support can ensure optimisation of your existing modules with updates, automation and extensions of the OneTrust services for data protection, ESG and GRC compliance.
- 3 Health check**
Based on our experience with numerous projects, we will suggest further improvements for your processes and templates so that you are even better positioned for recurring tasks.

Advantages of the alliance

- **Legal expertise:** KPMG Law provides comprehensive legal advice to companies regarding data protection and compliance regulations. The experts at KPMG Law assist organisations in identifying and implementing data protection and compliance requirements.
- **Technology:** OneTrust provides industry-leading privacy and compliance software to assist organisations in automating their programmes. Companies can thus improve the efficacy of their data protection and compliance programmes even further.
- **Benchmark and best practice:** KPMG Law can assist you in achieving a competitive and legally compliant implementation. Based on our experience with numerous OneTrust implementation and support projects, we can offer quick, yet tailored solutions.
- **Integration:** the collaboration between legal experts and OneTrust provides companies with an integrated service for their data protection and compliance challenges. Organisations can thus seamlessly manage and further enhance their data protection and compliance programmes.

The combination of KPMG Law's legal expertise and OneTrust's data protection and compliance software provides organisations with a comprehensive approach to their data protection and compliance challenges.

Service overview

- Confidence: KPMG Law and OneTrust are among the leading companies in their respective fields. Their alliance offers companies a trusted approach to their data protection and compliance challenges.
- Global services: KPMG Law and OneTrust have a global presence. The alliance can advise companies on their data protection and compliance challenges, regardless of their location.
- Data protection as a service: with OneTrust, KPMG Law offers a wide range of services in order to be able to master the challenges of data protection and further compliance with technology support and expertise, reducing the workload for companies.

DPO as a service

Provision of an external data protection officer through partners, in addition to tailored legal guidance from data protection professionals

Maturity assessments

Review of the implementation status of data protection management systems and evaluation of critical gaps and potential for improvement

Data protection management systems

Support in developing and implementing (group-wide) data protection management systems

Data protection as a service

Incident support

Support in processing, reporting and documenting data protection incidents as well as communicating with responsible supervisory authorities

Data subjects' rights

Support in responding to inquiries from those affected (e.g., access requests) and defending against claims, even when dealing with significant case volumes

International data transfer

Advice on international data transfer (standard contractual clauses, preparation of transfer impact assessments, BCRs etc.)
